

Jeff Keith

Senior Full Stack AI Engineer

North Port, FL • me@jeffkeith.me • 585 738 8598 • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

Summary

Senior Full Stack AI Engineer & Engineering Manager with 20+ years of experience architecting, scaling, and leading production systems across AI, e-commerce, and enterprise SaaS platforms. Specialist in modern AI-native architectures—spanning agentic workflows, MCP servers, voice AI, and multi-model orchestration—paired with deep full-stack mastery in React, Node.js, and cloud systems. Proven track record leading engineering teams, delivering high-scale products serving millions of users, and driving product innovation from concept to launch.

Professional Experience

Senior Full Stack AI Engineer | genny.bot

May 2025 – Present

- **Founded & Launched Platform:** Built and deployed an AI-native web application from concept to production, specializing in multimodal content creation, voice cloning, character avatars, and AI automation.
- **Architected AI Infrastructure:** Designed agentic workflows, MCP servers, tool-calling pipelines, and multi-model orchestration integrating leading LLMs (OpenAI, Claude, Gemini, DeepSeek, ElevenLabs).
- **Engineering & Reliability:** Developed real-time React/TypeScript frontends with streaming conversations and built production infrastructure for prompt evaluation, guardrails, monitoring, and cost optimization.
- **Technologies:** React, TypeScript, Node.js, Express, Docker, Vercel, AWS, Supabase, Postgres, Stripe, Cursor, Claude Code

Senior Full Stack Engineer | ButcherBox

July 2021 – May 2025

- **Led a cross-functional engineering team** responsible for customer lifecycle experiences, subscription management, retention initiatives, and experimentation platforms serving millions of subscribers.
- **Partnered with Product, Analytics, Design, and Executive stakeholders** to define technical strategy, roadmap priorities, and delivery execution.
- **Delivered an AI-assisted retention platform** leveraging Palantir Foundry, behavioral data, experimentation frameworks, and personalized customer experiences.
- **Implemented release and deployment improvements** that reduced production defects and increased delivery confidence.

- Mentored engineers through architecture reviews, code reviews, career development, and technical leadership.
- **Technologies:** React, Remix, TypeScript, PHP Laravel, Shopify Hydrogen, Liquid, Node.js, Docker, Azure, SQL, GraphQL, Contentful, Shopify Plus, Checkout Extensibility, Shopify Functions and APIs, React Query, Klaviyo, Segment, Claude Code, Cursor, Jira, Confluence, Agile, GitHub Actions, CI/CD, Stripe, Optimizely, Datadog, Cypress

Lead Full Stack Engineer | Records One

March 2019 – July 2021

- Architected and developed healthcare software solutions supporting enterprise clinical data workflows.
- Led development of Node.js APIs, frontend applications, CI/CD pipelines, testing frameworks, and deployment processes.
- Managed a remote engineering team and guided technical design and delivery.
- **Technologies:** React, TypeScript, Next.js, Node.js, Docker, Postgres, Git, CI/CD, Jenkins, Agile, Scrum

Senior Full Stack Engineer | FabSuite / Trimble

January 2016 – April 2019

- Primary developer for FabSuite Go, an API-driven steel fabrication management platform.
- Designed and implemented inventory, shipping, inspection, and 3D model integration capabilities.
- **Technologies:** React, TypeScript, Next.js, Node.js, PHP, Docker, Postgres, Git, CI/CD, Jenkins, Agile, Scrum

Full Stack Engineer | Freelance / AsSeenOnTv.com

1997 – 2016

- Built custom web applications, e-commerce platforms, payment integrations, membership systems, and business applications.
- Founded and operated SavingLots.com, developing custom commerce, inventory, payment, and fulfillment systems.
- **Technologies:** WordPress, Shopify, PHP, JavaScript

Education

Rochester Institute of Technology – Computer Science, 1996–2000

Finger Lakes Community College – Business Management, 1990–1992

Technical Skills

- **AI Engineering:** Agentic Workflows, MCP Servers, Tool Calling, Multi-Model Orchestration (OpenAI, Claude, Gemini, Grok, DeepSeek), Voice AI (ElevenLabs), Multimodal AI, Prompt Engineering, Guardrails
- **Frontend:** React, Next.js, Remix, React Native, TypeScript, JavaScript (ES6+), HTML, CSS
- **Backend & APIs:** Node.js, Express, GraphQL, REST APIs, Laravel (PHP), Python
- **Cloud & Infrastructure:** AWS, GCP, Vercel, Docker, Linux/Ubuntu, CI/CD, GitHub Actions
- **Data & Storage:** PostgreSQL, Supabase, MySQL, MongoDB
- **Observability & Commerce:** Datadog, Sentry, Cypress, Shopify, Stripe, Contentful, Segment, Optimizely
